

## TRIAL OF HARRIS BEGINS TO-DAY

Warrenton Teacher Charged With Murder of Editor Thompson.

**MAKES PLEA OF SELF-DEFENSE**

Change of Venue Granted and Case Removed to Prince William.

[Special to The Times-Dispatch.] Manassas, Va., June 12.—On Monday the noted case of the Commonwealth against J. D. Harris will be called in the Circuit Court of Prince William county. Both the Commonwealth and Professor Harris are ready and anxious for a trial, and unless something unexpected happens the case will be taken up at that time.

The crime with which Professor Harris is charged, and in which he will have to answer at the bar of this county, is the killing of Editor Thompson on the streets of the town of Warrenton, Fauquier county, last summer.

Professor Harris was indicted and tried in Fauquier county a short while subsequent to the alleged crime. He was convicted and given a four years' term in the State Penitentiary. During the progress of the case many exceptions were noted to the rulings of the court, and the case was taken to the Court of Appeals on bills of exceptions, with the result that the Circuit Court was reversed and the case remanded for a new trial. The ground upon which the Court of Appeals based its reversal of the Circuit Court was the refusal of the lower court to allow the defendant to introduce evidence to impeach the testimony of certain witnesses called before the grand jury.

**Change of Venue.**

After the case was remanded to the Circuit Court of Fauquier county, the defendant asked for a change of venue and submitted with him motion 100 affidavits from citizens of Fauquier county stating that in the belief of the affiants Harris could not get a fair and impartial trial before a jury of that county. The defendant's motion for a change of venue was granted and the case removed to this county.

Both Harris and Thompson were very prominent in Fauquier, the former at the time of the homicide being principal of the Warrenton High School and much interested in the affairs of the schools of the county and State. Mr. Thompson was associated with W. C. Marshall in the publication of the Warrenton Virginian, one of the leading county papers in the State.

On the day of the homicide Thompson had insulted Harris in the presence of a party of women at the depot in Warrenton, and later assaulted him on the main street of the town. Harris' claim is that he fired the fatal shot in self-defense, and upon this point he will ask the jury to believe him.

**Brilliant Array of Counsel.**

A brilliant array of counsel is to appear in the case. The Commonwealth will be represented by J. A. C. Keith, Commonwealth's Attorney for Fauquier county, Major R. A. McIntire, a prominent attorney of that county, and H. Thornton Davies, Commonwealth's Attorney for Loudoun county.

The defendant will be represented by Marshall McCormick, one of the leading attorneys in the State, and recently represented Judge Samuel W. Williams, Attorney-General of this State. In the assistance of McCormick will be John J. Saunders, of West Virginia, Hon. Richard E. Byrd, Speaker of the Virginia House of Delegates, and one of the most prominent lawyers of the Winchester bar; G. Latham Fletcher, member of the State Senate from Loudoun; R. A. Hutchinson, an able and successful practitioner of Prince William county.

## Voice of the People

Comments must be more than 500 words, not to be returned. When this limit is exceeded letters will be returned. No anonymous communications will be accepted. A stamped envelope, with the writer's address, must accompany every communication.

### Defends "The Betrayal"

To the Editor of The Times-Dispatch: Sir,—Will you kindly honor me with the privilege of a few words through your columns as to the most recent controversies precipitated by the publication of "The Betrayal"?

I am so attracted upon the appearance of that remarkable book because the scene was laid in the town of Warrenton, where I lived and practiced medicine at the time which the authors of the work seek to portray, and because I knew all the originals of the characters depicted. I knew General Mahone well during and after the war. I knew Mr. Massey when I was a boy, and the practiced often in a Baptist Church located at one corner of my father's estate, in Loudoun county, and I myself often in the readjuster times and heard him speak repeatedly and talked with him at times about his speeches. I was at the funeral of "Abe" Fulkerson, and met him often during and after the war. I knew John S. Wise very well and his father, John S. Wise, Governor Holladay and Judge Stables and other prominent near-Readjusters. I knew Governor Cameron well, and I liked and admired the man. I admired his manliness, his honesty and his abilities.

So happened when I lived in Warrenton that two young men who came out of the war empty-handed came there and started a newspaper, one of them a practical printer, the other putting in what money he had; neither of them had ever written a line for publication. They asked me to write their "leader" for their first issue, which I did, with the understanding that they would not ask me to write any more. I was known by the name of "Abe" Fulkerson, and the result was that I finally wrote all their "leaders" for the first year or two of the paper's existence. The paper published there learned in some way that I was the writer of these leaders.

## More Pianola Pianos

Are Sold Than All Other Makes Combined

Is not this one of the strongest reasons in the world why you should buy a Pianola Piano in preference to others? People generally find and buy the best.

Write for catalog.

Oldest Music House in Virginia and North Carolina.

which were attributed to various members of the Warrenton bar, and urged me to write an occasional one for them, which I did. These leaders attracted attention all over the State and a number of them were reproduced with comments by papers of State circulation. Frequently by the Dispatch, Warrenton was at that time a political center of importance, made so by the fact that the then Governor, William Smith, General R. E. Byrd, William H. Payne, and Howard Shackelford, Murray Forbes, Taylor Scott, James V. Brooke and others, I heard from these gentlemen and others of State reputation many enlightening speeches.

When the Blacksburg school was organized I was offered and accepted the chair of chemistry and the theory and practice of scientific agriculture, and became a member of the executive committee of the State Agricultural Society at Richmond and the editor of the Southern Planter. On that board I made the acquaintance of a number of the foremost men in the State, and I heard and participated in discussions of the issues of the times constantly. Upon this foundation I base my claim to familiarity with the subject of the questions dealt with in "The Betrayal," and I am clearly of the opinion that the book is just and true exposition of the facts of history. I want to say especially that its reference to the award of the prize to the young man, who wrote the best essay on General Lee meets my complete approval. The defense by the Commonwealth is, in my opinion, a masterpiece. It was made in view of the literary values of the essay, is sufficiently answered by the essay itself. If that was really the best essay presented, it must have been the others. The correct judgment would manifestly have been that the award should have been given to the author of the essay having been presented, the award is withheld.

Chalmers, at the University of Virginia there ought to be a great department of history, with a great historical library accessible to all students and writers of history and manned by competent faculty. Nothing is so important to mankind as that which is written by the pen of a man who has lived and who has seen the things which he writes. The writer has time and again urged this matter upon the attention of men in authority, and the reply has been that he will ask the jury to believe him.

The university is now amply endowed. Despoiled of her most precious rights, what has the State, which has Virginia, left to contend for but the truth of history? Despoiled of her best, the State is left with a strip of every trace of her primeval sovereignty; will she now suffer her honor and glory to go by default? In all these matters I am with "The Betrayal" throughout and throughout. With regard to the final settlement of Virginia with her creditors I am of the opinion that it was the best that could be done in that matter for both parties, and that it was a perfectly honorable and just settlement. At that time one of the editors of the National Economist, the organ of the Farmers' Union, and the man to whom Mr. Cleveland was chairman asked me to come to New York at that time, and I went, and I was asked to do certain things in favor of settlement. I wrote to my friend, Judge Keith, and asked his opinion and advice, and he said that the proposed settlement would be, in his opinion, fair and honorable and just and right, and I have never had his reply to that letter, saying that in his best judgment it was a proposition fair and honorable and just and right, and I trusted that the Democratic party would not fail to carry it out in good faith. In a matter of that sort I trusted Judge Keith's opinion more than that of any other man I ever knew. I went to New York and met the committee, and I now have before me a letter from Mr. Olcott, the secretary of the committee, acknowledging the value of the work I did. Now, therefore, all those things which are in the past, it will now be the part of wisdom not to forget, and not neglecting the agony and bloody sweat through which we have passed, to face the future like men, not ashamed of the cause we lost and the land we love; knowing that "he that doeth truth cometh to the light, but every one that loveth and maketh a lie hideth himself in darkness."

Very respectfully, Mr. Editor, your obedient servant, M. G. ELLZEY, Cumberland, Md.

### Paying Doctors for Cures

To the Editor of The Times-Dispatch: Sir,—I am interested in your editorial copied in the Newport News Daily Press on the subject of the doctors. As a practical solution of the problem I offer the Chinese method. You pay the doctor as long as he keeps the family in health. When a member of the family gets sick the doctor's pay stops till he makes a cure or gives up the service. This is one of the Chinese customs that appeals, as does the one relating to presidents of banks. The latter are desirous of the continuance of their office, and the Chinese customs in these two particulars health and finance would be placed on a more solid foundation than they now rest upon. This is food for reflection by citizens of the great United States of America. C. S. J.

### Praise for Dr. Buchanan

To the Editor of The Times-Dispatch: Sir,—That incident concerning Rev. James Buchanan, secretary of Associated Churches, is cleared with his full vindication. I know, but I wish to brief gratitudo testimony to reach you. I am a woman, fifty-nine years old, and have been closely associated with friends in connection with their work all my life, especially in Boston, my native city, but am more a less familiar with individuals who now live in New York, Philadelphia and Chicago. I was associated with Dr.

and Mrs. Buchanan in Richmond in their mission work for a year and a half or two years. I have heard Dr. Buchanan repeatedly tell his duties and applicants for aid, and have never any of them in the least unbefriendly or a Christian gentleman. His attitude has always been above reproach in every case, no matter how difficult the case might be. I consider his methods as direct and sane as any I have ever known, and as such, I think, those who have departed themselves from the privilege of shaking hands with friends with God for the cause of civic righteousness. LAURA M. JOY, Afton, Va.

### Farmers' Organizations

To the Editor of The Times-Dispatch: Sir,—It is time for the farmers of Charlotte county and of the State to wake up to their duties and privileges. While we are sleeping, the country is full of progress, while we are unorganized, the country is in a state of confusion. The farmers of America organized they would be the strongest power on earth, since on them depends the subsistence of man and beast. As conditions are to-day, the prices of farm commodities are arbitrarily fixed without consulting the farmer. Wool, for example, of the best quality, brings only 10 cents a pound, while to hold their wool for higher prices, they could easily advance the price to 30 cents.

We can only secure our rights by co-operation and organization, and the sooner we realize this the better. Let me ask all farmers to write J. A. Everett, of Indianapolis, Ind., president of the Farmers' Society of Equity. He has outlined in most perfect and practical plan of organization for farmers that I have ever seen, and his plan, adopted by the farmers, will bring us what is due to us. J. A. Everett, of Indianapolis, Ind., president of the Farmers' Society of Equity. He has outlined in most perfect and practical plan of organization for farmers that I have ever seen, and his plan, adopted by the farmers, will bring us what is due to us. J. A.
